## PRINCIPAL CHANGES

#### Dividend tax credit

An individual (other than a trust that is a registered charity) who is a member of a partnership that received or is deemed to have received ordinary or eligible dividends from a taxable Canadian corporation can claim the dividend tax credit. To calculate the credit to which the individual is entitled, the partnership must use the gross-up rate and tax credit rate applicable to the type of dividend (ordinary or eligible).

The gross-up rate applicable to **ordinary dividends** is reduced to 16% for dividends received or deemed received after December 31, 2017, but before January 1, 2019. The rate is 17% for dividends received or deemed received before January 1, 2018.

The tax credit rate applicable to **ordinary dividends** before the gross-up is reduced to:

- 8.178% for dividends received or deemed received after December 31, 2017, but before March 28, 2018;
- 7.2848% for dividends received or deemed received after March 27, 2018, but before January 1, 2019.

The rate is 8.2485% for dividends received or deemed received before January 1, 2018.

The tax credit rate applicable to **eligible dividends** before the gross-up is reduced to 16.3668% for dividends received or deemed received after March 27, 2018, but before January 1, 2019. The rate is 16.422% for dividends received or deemed received before March 28, 2018.

The instructions for boxes 6a, 6b and 44 and codes 6-1 through 6-3 have been updated to account for these changes. There are new codes for additional information boxes for the dividends entered in boxes 6a and 6b.

## New rules pertaining to the special tax on split income

As a rule, the special tax on split income applies to the split income of a **minor** that is resident in Canada throughout the year and whose father or mother is resident in Canada at any time in the year. To identify the split income of a minor who is a partner, the partnership must use the additional information code applicable to the following types of income that constitute split income:

- dividends from unlisted shares of a corporation;
- income from the business that the partnership operates if **one** of the following conditions applies:
- a person related to the partner who is a minor holds an interest in the partnership or is actively engaged in the
  activities of the partnership, or
- the business provides products or services to a business that is operated by a person who is related to the minor or by a partnership of which the person is a specified shareholder.

As of 2018, an **adult** partner who is resident in Canada at the end of the year may also be subject to the tax on split income on the above-mentioned income. The rule excluding income from property that a minor received as an inheritance will also apply to an adult partner who was under 25 at the end of the year.

A partner who is a **minor** now only needs to be resident in Canada at the end of the year (as is the case for adult partners), rather than throughout the year, to be subject to the tax on split income. Note that one of the parents of the **minor** must also be resident in Canada at some time in the year.

The instructions respecting additional information codes 1-11, 2-5, 6-3, 8-5, 17-5 and 18-5 have been changed to take into account these new rules. Before you enter one of these codes on the RL-15 slip, see the instructions for that code and section 3.3.3 of this guide.

For certain types of income that may be deemed split income (such as income from certain debts and certain capital gains that do not qualify for the capital gains deduction), you are not required to provide additional information.

## Percentage of business carried on in Québec by the partnership

From now on, you must enter the percentage of business carried on in Québec by the partnership in box 42 **regardless** of whether the partnership has an establishment in Québec and an establishment outside Québec. The instructions for box 42 have been changed accordingly.

#### **Elimination of certain additional information codes**

The following codes have been eliminated because they are not required on RL-15 slips for a fiscal period that ends in 2018:

- code 1-9, "Farm or fishing income derived from the disposition of incorporeal capital property";
- code 71-3, "Eligible expenses incurred before March 18, 2016";
- code 71-4, "Eligible expenses incurred after March 17, 2016."

## 1 GENERAL INFORMATION

Partnerships use the RL-15 slip to provide their members (also known as "partners") with information about operating results (for example, income, losses, and other amounts allocated to the members for the fiscal period). Members use this information to complete their income tax returns.

A separate RL-15 slip must be filed for each member. Each slip must contain all the required information. Negative amounts must be preceded by a minus sign (–).

The boxes on the RL-15 slip are grouped into the five categories listed below. Each box is explained in section 3.4 of this guide.

## Boxes 1 through 45

In boxes 1 through 45, you must enter the information for each member of the partnership for which an RL-15 slip is being completed.

#### "Abri fiscal" (boxes 50 through 55)

You must complete the section entitled "Abri fiscal" (tax shelter) to provide information about interests in the partnership that constitute tax shelters and that were acquired during the fiscal period by individuals who were resident in Québec at the time of the investment.

## "Actions accréditives" (boxes 60 through 66)

If, further to an investment in flow-through shares (directly or through another partnership), the partnership must **allocate** exploration or development expenses or amounts of assistance to its members, or revise amounts allocated previously, you must complete the section of the RL-15 slip entitled "Actions accréditives" (flow-through shares) to indicate the share of expenses allocated to the member for which the slip is being completed. This section must also be completed if the partnership renounced security issue expenses in favour of its members or if it allocated share issue expenses to them.

#### "Crédit d'impôt" (boxes 70 through 76)

If applicable, you must complete the section of the RL-15 slip entitled "Crédit d'impôt" (tax credit) to provide the information that members of the partnership need to calculate a tax credit to which they may be entitled.

## "Renseignements complémentaires" (additional information)

The partnership has to provide additional information about the amounts entered in certain boxes of the RL-15 slip. Where this is the case, you must enter the code for the additional information in a blank box, followed by the amount or the corresponding information. The code generally begins by the number of the box to which it relates.

#### NOTE

Make sure that you always use the version of the RL-15 slip corresponding to the version of the *Partnership Information Return* (form TP-600-V) that is in effect for the taxation year concerned.

In addition, always consult the version of the *Guide to Filing the Partnership Information Return* (TP-600.G-V) and of the *Guide to Filing the RL-15 Slip* (RL-15.G-V) applicable to the fiscal period concerned. The different versions of the guide are available on our website at **revenuquebec.ca**.

## 2 FILING THE RL-15 SLIP

## 2.1 Format of RL-15 slips

Information related to a partnership must be provided on the prescribed RL-15 slip. The prescribed slip is available on our website (revenuquebec.ca). You can also obtain a paper slip or use a computer-generated slip. To use a computer-generated RL slip, you can purchase software authorized by Revenu Québec for filing RL slips, or you can develop your own software for filing RL slips.

If you develop your own software, certain conditions apply. For more information, visit the **Partners** section of our website at **revenuquebec.ca/en/partenaires**. Note that we do not give financial compensation to persons who provide their own RL slips.

## 2.2 Deadline for filing and distribution

As explained in the *Guide to Filing the Partnership Information Return* (TP-600.G-V), the RL-15 slips and other required documents must be filed with the information return.

You must send us these documents **before the filing deadline**. The deadline is given in section 1.3.1 of the *Guide to Filing the Partnership Information Return* (TP-600.G-V).

## 2.2.1 Filing RL-15 slips and the information return with Revenu Québec

If you file more than 50 RL-15 slips, you must send them to us online (in an XML file).

**If you file fewer than 51 RL-15 slips**, you must send them to us either online (in an XML file) or by mail (on paper). In the case of paper RL slips, send us only one copy of each slip.

The Partnership Information Return (form TP-600-V), which acts as the RL-15 summary, must be filed by mail, on paper.

Send the information return and any paper RL-15 slips to the address below that is nearest to the partnership's principal establishment in Québec:

Revenu Québec

3800, rue de Marly

Québec (Québec) G1X 4A5

Revenu Québec

C. P. 3000, succursale Place-Desjardins

Montréal (Québec) H5B 1A4

If the partnership does not have an establishment in Québec, the documents can be sent to either address.

Make sure you keep a copy of the RL-15 slips on technological media or on paper, as applicable.

We recommend that you consult the *Tax Preparers' Guide: RL Slips* (ED-425-V), which is available on our website.

For information on how to certify RL-15 slips in XML, you can contact the Direction des relations avec les partenaires et des communications personnalisées by telephone at 418 266-1201 or, toll-free, at 1 866 840-7060, or by email at infoconcepteur@revenuquebec.ca.

## 2.2.2 Distributing copies of the RL slips to the members of a partnership

You must give each member of a partnership that member's copy of the RL-15 slip, together with the document *Instructions pour les membres de la société de personnes* (RL-15.EX). You can give the documents by mail, in person or electronically.

If you send the documents electronically, you must obtain each member's prior written consent. Members must clearly state that they consent to receiving the documents electronically and that their consent shall remain valid for as long as they do not inform you of their intent to revoke it. Furthermore, you must inform the members of the means by which they may revoke their consent.

For more information about sending RL slips, see the *Tax Preparers' Guide: RL Slips* (ED-425-V), which is available on our website.

1086R70: ALFIT3. ALFIT28. ALFIT29. ALFIT71

## 2.3 Amending or cancelling an RL slip

To amend or cancel an RL-15 slip that has already been filed online, follow the instructions in the *Tax Preparers' Guide: RL Slips* (ED-425-V). You can file amended or cancelled RL-15 slips online.

To amend a paper RL-15 slip that has already been submitted, file a new, corrected slip marked "Modifié." Enter the letter "A" in the box marked "Code du relevé" and the number shown in the upper right-hand corner of the slip you are amending.

To cancel a paper RL-15 slip that has already been submitted, make a photocopy of the slip, clearly write "Annulé" on it and, in the box marked "Code du relevé," enter the letter "D." Make sure that the number shown in the upper right-hand corner of the original slip is legible on the photocopy.

You must always file an amended information return when you amend or cancel an RL-15 slip, regardless of how you file the documents with us.

## 2.4 Penalty

Each member of a partnership must make sure that the partnership files its information return and the RL-15 slips for each of its fiscal periods.

Under the Tax Administration Act, the partnership or each member of the partnership is liable to a penalty if:

- an RL-15 slip is filed late; or
- more than 50 RL-15 slips were filed but not online.

TAA59, 59.0.0.3, 59.0.0.4, 59.0.2

## 3 HOW TO COMPLETE THE RL-15 SLIP

## 3.1 Allocation of amounts to the partners

As a rule, income, gains, losses, deductions and other amounts are allocated to the partners in accordance with the terms of the partnership agreement.

However, for a given fiscal period, the allocation of certain amounts is determined on the basis of the percentage interest (or agreed proportion), which is each partner's share of the partnership income (or losses) for the fiscal period. Where the partnership's income and loss for the fiscal period are both nil, amounts must be allocated as if the partnership had income of \$1 million for the fiscal period.

## This rule applies to:

- the total income from logging operations used to calculate business income (box 1);
- patronage dividends from a cooperative received in the form of preferred shares (box 9);
- amounts included in the paid-up capital of member corporations (boxes 24a through 24c);
- tax credits (boxes 70 through 76).

The percentage interest must be entered in box 36 of the RL-15 slip and, if a tax credit is to be allocated, in box 74. However, in the case of an interposed partnership, the percentage interest entered in box 74 must be lower than the percentage interest entered in box 36. For more information, see the instructions for box 74 in section 3.4.8.

Further adjustments in the allocation of amounts to partners may be required, depending on the type of income or loss, the type of tax credit or whether the partners are specified members.

## 3.2 Breakdown of income by province, territory or country

If the partnership derives income from (or sustains losses on) activities carried on in more than one province or territory, or outside Canada, you must prepare a table that breaks down the income (or losses) by jurisdiction. Enclose the table with the information return and give the partners a copy with their RL-15 slip.

Income derived from **two** foreign countries can be entered on a single RL-15 slip. If the income is derived from three or more foreign countries, you must file a separate RL-15 slip for every two additional countries. For more information, see the instructions for box 2 in section 3.4.5.

## 3.3 Special cases

## 3.3.1 Limited partner

Certain rules apply where a partnership sustains a loss and a partner is a limited partner.

A limited partner's share of all of the partnership's losses, whether from a business (other than a farming business) or from property, is deductible up to an allowable amount. The allowable amount is equal to the **partner's at-risk amount** at the end of the partnership's fiscal period or, if applicable, to the portion of the at-risk amount that exceeds the partner's share of:

- the federal investment tax credit:
- the partnership's losses from a farming business for the fiscal period;
- the Canadian and foreign resource expenses incurred by the partnership during the fiscal period (boxes 28 through 31).

You must take this rule into account when determining the losses to be entered in boxes 1 and 3 of the limited partner's RL-15 slip. The total amount of these losses must not exceed the allowable amount mentioned in the previous paragraph. Leave the box blank if the allowable amount is nil.

If the partnership incurred scientific research and experimental development (R&D) expenditures that created or increased the business loss, the partnership must not allocate a share of this loss (or of the increase in this loss) to the partner.

The portion of losses that exceeds the allowable amount constitutes the partner's limited partnership loss for the taxation year in which the partnership's fiscal period ends. Enter the limited partnership loss in **box 27** of the RL-15 slip. This loss may be carried forward to any subsequent year.

600(g), 613.1, 613.2, 733.0.0.1

#### NOTE

A partnership's losses from a farming business are not limited by the at-risk amount rules and must be included in the amount in box 1. For more information, see the explanations under "Code 1-8 (Farm losses)" in the instructions for box 1.

#### **Example**

Partner's share of the partnership's business loss for the fiscal period: \$10,000

Partner's at-risk amount at the end of the fiscal period: \$6,000

Subject to other restrictions, the maximum amount that may be entered in box 1 is the partner's at-risk amount (that is. \$6.000).

If the at-risk amount rules did not apply, the partner would be able to deduct \$10,000. However, as the partner can deduct only \$6,000 because of the at-risk amount, the difference of \$4,000 constitutes the limited partnership loss. This is the amount that must be entered in box 27 of the partner's RL-15 slip.

#### At-risk amount

The term "at-risk amount" is defined in Part 2 of the *Guide to Filing the Partnership Information Return* (TP-600.G-V). The partnership must provide the information that the partners need to calculate their at-risk amount in Schedule A of the information return.

#### **Limited partnership loss**

The limited partnership loss is the portion of a limited partner's share of the partnership's business loss (other than from a farming business), property loss or issue expenses related to Québec resources which, because of the partner's at-risk amount, cannot be deducted.

#### NOTE

For the purpose of calculating the at-risk amount, if a limited partner acquired its interest from a third party, rather than directly from the partnership, the adjusted cost base (ACB) of the interest must be determined as if its cost were equal to the cost otherwise determined or the ACB of this interest for the transferor immediately before the transaction, whichever is less.

If, for the fiscal period, the partnership sustained a business loss, or incurred resource expenses and issue expenses for flow-through shares or securities, you must calculate the at-risk amount **before** determining the amounts to be entered in the following boxes of the RL-15 slip:

- box 1, net business income (or loss);
- box 3, net rental income (or loss);
- box 27, limited partnership loss;
- boxes 28 through 31, Canadian and foreign resource expenses; and
- boxes 60, 61 and 65, Canadian exploration and development expenses, and share and security issue expenses.

Resource expenses include:

- Canadian exploration or development expenses;
- Canadian oil and gas property expenses; and
- foreign resource expenses.

## 3.3.2 Professional dues deemed paid by members

The partnership may not deduct from its income any professional dues that it paid on behalf of its members during the fiscal period. However, its members are deemed to have each paid their share of these dues during the taxation year in which the partnership's fiscal period ended.

Where a member is a corporation, its share of the professional dues is deductible in the calculation of its income.

Where a member is an individual, that person's share of the professional dues gives entitlement to a non-refundable tax credit.

Where a member is a partnership, its members may take advantage of a tax benefit in the form of a deduction (in the case of a corporation) or in the form of a tax credit (in the case of an individual), as applicable.

In the section of the RL-15 slip for additional information, enter "201" in a blank box, followed by the partner's share of the dues paid by the partnership.

134.2. 134.3

## 3.3.3 Partner subject to the tax on split income

A partner **is subject** to the tax on split income calculated at the highest marginal rate on the partner's portion of the partnership's income that constitutes split income if the partner is an individual (other than a trust) resident in Canada on December 31 of the year in which the partnership's fiscal period ended.

However, such an individual **is not subject** to the special tax if he or she is in **one** of the following situations:

- the individual is a minor, and his father and mother are not resident in Canada at any time in the year;
- the individual is an adult and is actively engaged in the activities of the business from which is derived the income that the partnership allocates to the individual (if the income comes directly from the partnership, the partner must be actively engaged in the activities of the partnership; if the income was received by the partnership from another person, the partner must be actively engaged in the activities of the other person. For example, if the partnership received a dividend from a corporation of which the partnership is a shareholder, the partner must be actively engaged in the activities of the corporation that paid the dividends to the partnership).

#### NOTE

- An individual is **deemed to be actively engaged in the activities of the business** if the individual works for the business for at least 20 hours per week in the fiscal year **or** in at least five previous fiscal periods.
- A partner is a minor if he or she is 17 or under on December 31 of the year in which the fiscal period ended. The partner is an adult if he or she is 18 or over on December 31 of the year in which the fiscal period ended.

#### **Split income**

If a partner is **subject** to the special tax on split income and the income entered in boxes 1, 2, 6, 8, 10 and 12 includes split income, you must enter, as applicable, codes 1-11, 2-5, 6-3, 8-5, 10-1, 12-7 and 12-8 in a blank box followed by the amount of split income. For more information, see the instructions for these codes.

If a partner is aged **24 or under** at the end of the taxation year in which the partnership's fiscal period ended, the partner's **split income does not include** income that is derived from property inherited from:

- the father or mother;
- a person for whom an amount for a severe and prolonged impairment of mental or physical functions can be claimed; or
- a person who is enrolled as a full-time student in a post-secondary institution.

For more information, contact us.

## 3.4 Explanation of the boxes

Enter, in the appropriate boxes, the data concerning the member of the partnership for which the RL-15 slip is being completed.

You may have to provide additional information for certain boxes. In such cases, enter the appropriate code in one of the blank boxes provided in the lower part of the RL-15 slip.

#### 3.4.1 Box marked "Année"

Enter the year in which the fiscal period of the partnership ended.

A is the lesser of the following amounts:

- the CCA recapture included in the partnership's income for the fiscal period, for the class to which the donated property belongs, and

#### **Limited partner**

In the case of a limited partner, you must take certain rules into account when determining the amounts to be entered in boxes 28 through 31. A limited partner's share of the Canadian or foreign resource expenses is **limited** to the amount by which the partner's at-risk amount at the end of the partnership's fiscal period exceeds the partner's share of the following amounts for the fiscal period:

- any federal investment tax credit;
- the partnership's losses from a farming business.

Consequently, if the partner's share of the resource expenses exceeds the maximum amount above, the excess amount must be used to reduce the following expenses, in the following order:

- Canadian oil and gas property expenses (box 30);
- Canadian development expenses (box 29);
- Canadian exploration expenses (box 28); and
- foreign resource expenses (box 31).

Each of the reductions (the total amount of which must correspond to the amount by which the partner's share of the expenses exceeds the maximum amount) must be added to the expenses of the same class for the fiscal period immediately following the fiscal period concerned. The partner can therefore deduct the excess expenses in the following period.

Where Canadian exploration expenses (box 28) are reduced in this way, Québec exploration expenses (boxes 32 and 33) must be reduced proportionately.

| 33-1 | Québec surface mining and oil and gas exploration expenses that qualify for the additional deduction of 10% |

#### **Limited-recourse amount**

The limited-recourse amount is the unpaid principal of a taxpayer's indebtedness for which recourse is limited, either immediately or in the future and either absolutely or contingently. In the case of a partnership, the limited-recourse amount is the unpaid principal amount of the partnership's indebtedness for which recourse against one of the members of the partnership is limited, either immediately or in the future and either absolutely or contingently.

### Box 54 At-risk adjustment

Enter any amount (including the value of a benefit) that the partner (or a person not dealing at arm's length with the partner) is entitled to receive.

#### Montant de rajustement à risque

The at-risk adjustment is any amount or benefit that a taxpayer (or another taxpayer not dealing at arm's length with the taxpayer) is entitled to receive, either immediately or in the future and either absolutely or contingently, whether by way of reimbursement, compensation, revenue guarantee, proceeds of disposition, loan or any other form of indebtedness, or in any other form. This amount or benefit is granted for the purpose of eliminating or reducing the impact of any loss sustained on an expenditure or, where the expenditure is the cost or capital cost of a property, for the purpose of reducing the impact of any loss from the holding or disposition of the property.

#### NOTE

Any amount owed to a tax shelter promoter or to a person that is not dealing at arm's length with the promoter is deemed to be a benefit.

#### Box 55 Other indirect reductions

Enter any other limited-recourse amount or at-risk adjustment of the other taxpayers that hold, either directly or indirectly, an interest in the partnership.

## 3.4.7 Boxes 60 through 66 (section entitled "Actions accréditives")

This section of the RL-15 slip is reserved for information on exploration and development expenses that the partner is deemed to have incurred during the fiscal period under the flow-through share system.

## **Boxes 60 and 61 Canadian exploration expenses and Canadian development expenses**

In boxes 60 and 61, enter the partner's share of the Canadian exploration expenses and Canadian development expenses that a development corporation renounced in favour of the partnership, according to the partnership's RL-11 slip.

The deduction the partner claims for Canadian exploration or development expenses incurred outside Québec is subject to the adjustment of investment expenses. The partner must therefore enter the deduction on Schedule N of the income tax return.

If the RL-11 slip includes additional information for box A concerning Québec exploration expenses that do not qualify for the additional deduction (code A-2) or concerning renewable and conservation expenses incurred in Québec (code A-1), or additional information for box B concerning Québec development expenses (code B-1), you must enter the partner's share of such expenses. Enter the additional information below, as applicable.

| Code | Additional information                                                       |  |
|------|------------------------------------------------------------------------------|--|
| 60-1 | Québec exploration expenses that do not qualify for the additional deduction |  |
| 60-2 | Renewable and conservation expenses incurred in Québec                       |  |
| 61-1 | Québec development expenses                                                  |  |

The partner will therefore be able to **subtract** these expenses from the deduction for exploration or development expenses in Schedule N.

#### **Limited partner**

The amount by which the Canadian exploration expenses and the Canadian development expenses (boxes 60 and 61) exceed the partner's at-risk amount in the partnership reduces the amount to be entered in box 61 first, then the amount in box 60. Each of the reductions (the total amount of which is equal to the excess amount) may be added to the expenses of the same class, which will be allocated by the partnership to the partner during the following fiscal period.

If the Canadian exploration expenses are reduced by the at-risk amount, the Québec exploration expenses (box 62), the Québec surface mining and oil and gas exploration expenses (box 63) and the exploration expenses incurred in northern Québec (box 64) must be reduced proportionately.

418.37. 418.38

## Box 62 Québec exploration expenses

If the partner is an individual, enter the partner's share of Québec exploration expenses. These expenses are **included** in the amount in box 60.

#### 726.4.9-726.4.17

Also enter the additional information below so that the partner may claim an additional deduction with respect to those expenses, as applicable.

| Code | Additional information                                                       |  |  |
|------|------------------------------------------------------------------------------|--|--|
| 62-1 | Québec exploration expenses that qualify for the additional deduction of 10% |  |  |
| 62-2 | Québec exploration expenses that qualify for the additional deduction of 25% |  |  |

The Québec exploration expenses that qualify for an additional deduction of 10% are those incurred after June 4, 2014, except where they are incurred further to:

- an investment made before June 5, 2014, with regard to a flow-through share issued after that date;
- an application for a receipt for the preliminary prospectus or an application for an exemption from filing a prospectus, as applicable, made before June 5, 2014, with regard to a flow-through share issued after that date.

The Québec exploration expenses that qualify for an additional deduction of 25% are those incurred before June 5, 2014.

## Box 63 Québec surface mining and oil and gas exploration expenses

If the partner is an individual, enter the partner's share of surface mining and oil and gas exploration expenses incurred in Québec. These expenses are **included** in the amount in box 62.

Also enter the additional information below so that the partner may claim an additional deduction with respect to those expenses, as applicable.

| Code | Additional information                                                                                      |  |
|------|-------------------------------------------------------------------------------------------------------------|--|
| 63-1 | Québec surface mining and oil and gas exploration expenses that qualify for the additional deduction of 10% |  |
| 63-2 | Québec surface mining and oil and gas exploration expenses that qualify for the additional deduction of 25% |  |

The Québec surface mining and oil and gas exploration expenses that qualify for an additional deduction of 10% are those incurred after June 4, 2014, except where they are incurred further to:

- an investment made before June 5, 2014, with regard to a flow-through share issued after that date;
- an application for a receipt for the preliminary prospectus or an application for an exemption from filing a prospectus, as applicable, made before June 5, 2014, with regard to a flow-through share issued after that date.

The Québec surface mining and oil and gas exploration expenses that qualify for an additional deduction of 25% are those incurred before June 5, 2014.

726.4.17.1-726.4.17.9

The additional deduction for surface mining and oil and gas exploration expenses incurred in Québec may be claimed in addition to the deduction for Québec exploration expenses in box 62.

## Box 64 Exploration expenses incurred in northern Québec

The exploration expenses incurred in northern Québec are included in the amount in box 62. However, only a partner that is a corporation may create an exploration base relating to such expenses. The partner may then include in the exploration base 25% of the amount from box 64 and deduct up to 100% of the balance at the end of the partner's taxation year, if the balance is positive.

726.4.17.18 ff.

## **Box 65** Share and security issue expenses

#### **Securities**

Enter the partner's share of the security issue expenses that the partnership renounced in the partner's favour.

**Security issue expenses can be renounced** in favour of a partner if the partner is an individual or a partnership whose members include at least one individual.

Calculate the issue expenses using the formula  $(A \times B \div C) - D$ , where

- A represents the total security issue expenses renounced by the partnership on form CO-726.4.17.15, *Sommaire de la renonciation à certains frais d'émission relatifs aux ressources québécoises*, and covered by the RL-15 slip;
- B represents the total exploration expenses that were allocated to the partner up to the day of the renunciation (these expenses are the partner's share of the exploration expenses incurred in Québec by the partnership for flow-through shares it acquired using the proceeds of a security issue);
- C represents the aggregate of the exploration expenses that were allocated to the members of the partnership up to the day of the renunciation and the exploration expenses that will likely be so allocated subsequently (these are the expenses incurred or to be incurred in Québec by the partnership for flow-through shares it acquired using the proceeds of a security issue);
- D represents the total security issue expenses shown on an RL-15 slip already issued in the name of the partner for the same issue.

Furthermore, the partnership must also enter in box 65 the partner's share of the security issue expenses that another partnership renounced in its favour.

#### **Shares**

Box 65 is also used for the **allocation of share issue expenses** that a development corporation renounced in favour of the partnership during the fiscal period. Enter the partner's share of the share issue expenses shown on the RL-11 slips issued to the partnership. However, for a given share issue, the amount the partner may add to the issue base relating to certain share issue expenses must under no circumstances **exceed** the partner's share of the consideration paid by the partnership or by another partnership of which the partnership is a member to acquire shares from the share issue **minus** the aggregate of:

- the partner's share of all exploration or development expenses that a development corporation renounced in favour of the partnership, for shares from the share issue; and
- all share issue expenses previously included on the partner's RL-11 slips, for shares from this issue.

You must follow this rule to calculate the amount to enter in box 65 as share issue expenses.

#### Limited partner

The total amount that may be added to the partner's issue base relating to certain issue expenses for securities or shares for a given taxation year must under no circumstances be greater than the amount by which the partner's at-risk amount in the partnership at the end of the partnership's fiscal period ending in that year **exceeds** the total of the following amounts (among others):

- the partner's share of the partnership's losses from a business (other than a farming business) or from property; and
- the amount that would likely be the partner's share of the partnership's exploration and development expenses for all subsequent fiscal periods.

You must follow this rule to determine the amount to be entered in box 65 as a limited partner's share or security issue expenses.

176.1, 726.4.17.10, 726.4.17.11 (1st par. (subpar. (b)) and 3rd par.); 1086R43, 1086R44

## Box 66 Amounts of assistance related to the expenses reported in boxes 60 through 64

In the appropriate box, enter the partner's share of the amounts of assistance that relate to each class of exploration and development expenses.

Do not include in box 66(60) the amounts of assistance respecting Québec exploration expenses (box 66[62]), Québec surface mining and oil and gas exploration expenses (box 66[63]) or exploration expenses incurred in northern Québec (box 66[64]).

However, you must include in box 66(62) the amounts of assistance respecting Québec surface mining and oil and gas exploration expenses (box 66[63]) and exploration expenses incurred in northern Québec (box 66[64]), because the expenses entered in boxes 63 and 64 are included in those entered in box 62.

## 3.4.8 Boxes 70 through 76 (section entitled "Crédit d'impôt")

This section of the RL-15 slip is reserved for information the partner needs to calculate a tax credit to which the partner is entitled.

Except for the percentage interest (box 74), the information comes from, as applicable:

- Part 2 of Schedule E of the partnership information return;
- the RL-15 slip the partnership received from another partnership as a member of that partnership.

You must issue one or more additional RL-15 slips if the partner is entitled to **more than one** tax credit or if the partnership must complete **more than one** copy of Schedule E for the same tax credit. Each additional RL-15 slip must contain only the information required in the section entitled "Crédit d'impôt."

#### Box 70 Tax credit code

Enter the code that corresponds to the tax credit that may be claimed by the partner.

| Code | Tax credit                              |
|------|-----------------------------------------|
| 01   | Tax credit relating to resources        |
| 02   | Tax credit for investment               |
| 03   | Tax credit for salaries and wages (R&D) |

#### **Specified member**

A partner who was a specified member during the fiscal period is not entitled to a tax credit for R&D. Consequently, do not enter code 03 in this box for such a member.

1029.8

## **Box 71** Eligible amount

Enter the amount of the eligible expenses with regard to which the partner can claim the tax credit and for which you entered a code in box 70.

For the tax credit for investment, the eligible amount must take into account the excluded expense amount applicable. You must also file an RL-15 slip for each qualified property and provide the requested information respecting the property in boxes 72, 75 and 76.

For the tax credit for salaries and wages (R&D), the eligible amount must take into account the amount of reducible expenditures.

#### Special tax related to assistance, a benefit or an advantage

Members of the partnership who claimed a tax credit in a previous taxation year may have to pay a special tax where assistance, a benefit or an advantage was paid, directly or indirectly, to the partnership to offset an expense, or to reduce a payment to be made by the partnership, that gave entitlement to the tax credit. In such cases, the members must pay a special tax for the taxation year that includes the end of the fiscal period during which the partnership received, was entitled to receive or could reasonably expect to receive the assistance, benefit or advantage. Enter,

in box 70, the code corresponding to the tax credit claimed by the member in the previous taxation year and, in a blank box, "71-5" followed by the amount of the assistance, benefit or advantage related to that tax credit that the member must take into account in calculating the special tax payable.

In the case of a tax credit for investment, enter the code that corresponds to the region or regional county municipality (RCM) in which the qualified property was used by the partnership.

#### Box 73 Expense code

In the case of a tax credit relating to resources, enter the code that corresponds to the expenses included in the eligible amount in box 71. The code is the same as the code entered on line 12, 12g, 19, 19g, 26 or 33 of form CO-1029.8.36.EM, *Crédit d'impôt relatif aux ressources*.

| Code       | Description                                                    |  |

#### **Box 74** Percentage interest for the tax credit

Enter the percentage interest applicable to the calculation of the tax credit.

This percentage can be the same as the percentage entered in box 36, but it may be smaller for members of an interposed partnership. In this case, the percentage in box 74 is the result of the multiplication of several percentage interests.

For example, a member corporation has a 50% interest in an interposed partnership which has a 75% interest in the partnership that incurred eligible expenses for the tax credit. The percentage interest that the interposed partnership must enter in box 74 of the RL-15 slip of the member corporation is 37.5% (that is, 50% x 75%). The member corporation must enter the percentage on the form used to claim the tax credit.

Note that there may be more than one interposed partnership. For more information, refer to section 4.4.2 of the *Guide to Filing the Partnership Information Return* (TP-600.G-V).

You must enter this percentage so that partners can accurately calculate the deduction they may claim.

#### Boxes 75 and 76 Date the property was acquired and date the property was used

In the case of a tax credit for investment, enter the date on which the qualified property was acquired in box 75 and the date on which it began to be used in box 76.
