SELECTED FINANCIAL ASPECTS

An investment in Units will have a number of tax implications for a prospective Subscriber. The following presentation has been prepared by the General Partner to assist prospective Subscribers in evaluating the income tax consequences to them of acquiring, holding and disposing of Class A Québec Class Units and are not based upon an independent legal or accounting opinion. The presentation is intended to illustrate certain income tax implications to Subscribers who are Canadian resident individuals (other than trusts) who have purchased \$5,000 of Units (200 Units) in the Partnership and who continue to hold their Units in the Partnership as of December 31, 2019.

These illustrations are examples only and actual tax deductions may vary significantly. See Item 8, “Risk Factors” The timing of such deductions may also vary from that shown in the table.

NOTES AND ASSUMPTIONS

The calculations above assumes only Class A Québec Class Units are issued and are based on the estimates and assumptions described in the “Notes and Assumptions” included in the Offering Memorandum which form an integral part of the illustration. Please see Notes and Assumptions under the heading “Selected Financial Aspects” in the Offering Memorandum for the full text of the estimates and assumptions underlying the above calculations.

Please see important Notes and Assumptions to follow.

SELECTED FINANCIAL ASPECTS (CONTINUED)

- (1) Assumes that only Class A Québec Class Units are issued, the Offering expenses are \$25,000 in the case of the minimum Offering and \$125,000 in the case of the maximum Offering, that the operating and administration expenses are \$52,083 in the case of the minimum Offering and \$177,135 in the case of the maximum Offering over the lifetime of the Partnership, and that all Available Funds (\$199,375 in the case of the minimum Offering and \$4,362,500 in the case of the maximum Offering; see Item 1, "Use of Available Funds") are invested in Flow-Through Shares of Resource Companies that, in turn, expend such amounts on CEE which are renounced to the Partnership with an effective date in 2019 and allocated to a Québec Class Limited Partner (as defined in Item 6, "Income Tax Consequences and RRSP Eligibility - Québec Income Tax Considerations") and deducted by him or her in 2019. No portion of fees or expenses incurred by the Partnership in respect of the Québec Portfolio will be paid through funds borrowed by the Partnership.
- (2) It is assumed that in 2019, 100% of the Available Funds expended to acquire Flow-Through Shares of Resource Companies incurring Eligible Expenditures in and outside of Québec will entitle a Limited Partner to the 15% federal non-refundable "flow-through mining expenditure" investment tax credit available to him or her in respect of certain "grass roots" mining CEE incurred by a Resource Company in 2019 and renounced under Investment Agreements entered into before December 2019. It is assumed that the Limited Partner will be subject to tax on the recapture of the investment tax credit in 2020 (except for Québec provincial tax purposes).
- (3) These amounts relate to costs incurred by the Partnership, including the Agents' fees and Offering expenses (including travel, sales and marketing expenses including taxes), the General Partner's Fee, and certain estimated operating and administrative expenses (see Note (4)). Both calculations assume that the Partnership will realize sufficient capital gains to permit it to pay any operating and administrative expenses where these exceed those funded by the Operating Reserve. No portion of such fees or expenses incurred by the Partnership in respect of the National Portfolio will be paid through funds borrowed by the Partnership.
- (4) Subject to Note (3), Agents' fees and Offering expenses are deductible for the purposes of the Tax Act at a rate of 20% per annum.
- (5) Assumes no portion of the subscription price for the Units will be financed with a Limited Recourse Amount. See Item 6, "Income Tax Consequences and RRSP Eligibility - Canadian Federal Income Tax Considerations".
- (6) A Limited Partner may not claim tax deductions in excess of such Limited Partner's "at-risk" amount.
- (7) The calculations assume that the Limited Partner is not liable for alternative minimum tax.
- (8) The amount of tax deductions, income or proceeds of disposition in respect of a particular Subscriber will likely be different from those depicted above.
- (9) The calculations assume that 75% of Available Funds will be invested in Flow-Through Shares issued by Resource Companies incurring CEE 100% in the Province of Québec (the "Québec Eligible Funds"), and a Québec Class Limited Partner will be entitled to an additional 10% deduction in respect of certain CEE and an another additional 10% deduction in respect of certain oil and gas or surface mining exploration expenses incurred in the Province of Québec. For the purposes of our calculations of the results, we have assumed that 50% of the Québec Eligible Funds are entitled to the 20% additional deduction and that 50% are entitled to the 10% additional deduction. It is assumed that a Québec Class Limited Partner's investment income exceeds his or her investment expenses for a given year. For these purposes, investment expenses include certain deductible interest and losses of the Partnership allocated to such Limited Partner and 50% of CEE (other than CEE incurred in Québec) renounced to the Partnership and allocated to and deducted for Québec tax purposes by such Limited Partner. If such a Québec Class Limited Partner's investment expenses for a given year were to exceed the Limited Partner's investment income for that year, the excess would not be deductible in the year for Québec tax purposes but may be deducted against investment income earned in any of the three previous taxation years and any subsequent taxation year to the extent investment income exceeds investment expenses for such other year.
- (10) The calculations assume a federal marginal tax rate of 27.56% for Québec residents and a Québec provincial marginal tax rate of 25.75% for the Québec Portfolio. The tax savings are calculated by multiplying the total estimated income tax deductions for each year by the assumed marginal tax rate for that year. The illustration assumes that the Subscriber has sufficient income so that the illustrated tax savings are realized in the year shown.
- (11) The calculations assume there are capital gains realized on the sale of assets of the Partnership in order to pay operating and administrative expenses in excess of the Operating Reserve, as described in Note (3). The table does not take into account capital gains tax payable upon the disposition of Units or Mutual Fund Shares by Limited Partners.
- (12) At-risk capital (money at risk) is generally calculated as the total investment plus undistributed income less all anticipated income tax savings from deductions and the amount of any distributions. See Item 6, "Income Tax Consequences and RRSP Eligibility".
- (13) In calculating the capital gains tax and break-even proceeds of disposition for Québec provincial tax purposes, it is assumed that the individual Québec Class Limited Partner has a sufficient amount in his or her Expenditure Account (as defined Item 6, "Income Tax Consequences and RRSP Eligibility - Québec Income Tax Considerations") to enable the individual Québec Class Limited Partner to claim an exemption under the Québec Tax Act for the full taxable capital gain related to investments made in Québec realized on the disposition of the individual Québec Class Limited Partner's initial investment.
- (14) The calculations do not take into account the time value of money. Any present value calculation should take into account the timing of cash flows, the Subscriber's present and future tax position and any change in the market value of the Portfolios, none of which can presently be estimated accurately by the General Partner.
- (15) Downside protection is calculated by subtracting break even proceeds of disposition from initial investment cost and then dividing by investment cost.
- (16) The minimum equivalent deduction is calculated as the sum of (i) the net income tax deduction (federal and Québec, as applicable) and (ii) the ITC earned on CEE divided by the marginal tax rate (federal and Québec, as applicable). It represents the value of the tax deductions that would provide the same tax savings for the noted investment amount expressed as a percentage of the original investment of \$5,000.

ROLLOVER TRANSACTION

- In order to provide Limited Partners with liquidity and the potential for long-term growth of capital and income, the General Partner intends to implement a Liquidity Event on or prior to June 30, 2021, subject to market conditions.
- The Liquidity Event entails the transfer of the Partnership's assets to Maple Leaf Resource Class (the "Mutual Fund") for Mutual Fund Shares and the Limited Partners will receive their pro rata portion of Mutual Fund Shares.
- The Liquidity Event will be implemented on not less than 60 days' prior notice to the Limited Partners.
- Pursuant to the Mutual Fund Rollover Transaction, Limited Partners will receive redeemable Mutual Fund Shares on a tax-deferred basis.
- Completion of the Liquidity Event will be subject to the receipt of all approvals that may be necessary.

INVESTMENT RESTRICTIONS AND GUIDELINES

The Partnership has developed certain investment guidelines which govern the Québec Portfolios' investment activities. These investment guidelines provide, among other things, that the Québec Portfolio will invest pursuant to the following policies and restrictions:

QUÉBEC PORTFOLIO TYPE OF INVESTMENT	INVESTMENT RESTRICTIONS (% of Net Asset Value at the date of investment)
➤ Resource Companies listed on a stock exchange.	100%
➤ Resource Companies with a market cap of at least \$10 million.	At least 50%
➤ Investment in any one Resource Company.	Not more than 20%
➤ Investment in any one Resource Company with a market cap below \$10 million.	Not more than 10%

SELECTED RISK FACTORS

These securities are speculative in nature. This is a blind pool offering. An investment in the Partnership is appropriate only for Subscribers who have the capacity to absorb a loss of some or all of their investment. There is no assurance of a positive return or any return on an investment in Units. There can be no assurance that the General Partner will be able to identify a sufficient number of issuers willing to issue Flow-Through Shares to permit the Québec Portfolio to commit all of its Available Funds by December 31, 2019. Therefore, the possibility exists that capital may be returned to Québec Class Limited Partners and such Limited Partners may be unable to claim anticipated deductions from income for tax purposes.

See Offering Memorandum for additional risk factors and complete details.

ANTICIPATED SCHEDULE OF EVENTS

DATE	EVENT
➤ On or before March 31, 2020:	Investors will receive a T5013 Federal tax receipt and a Relevé 15 (RL-15) Provincial tax receipt for the 2019 tax year.
➤ Prior to June 30, 2021:	General Partner intends to implement a Liquidity Event.
➤ Within 60 days of completion of Liquidity Event:	Mutual Fund Shares will be distributed following the transfer of the Partnership's assets to the Mutual Fund, if a Mutual Fund Rollover Transaction is implemented.
➤ On or about June 30, 2022:	Partnership will be dissolved if a Liquidity Event is not implemented, unless the investors pass an Extraordinary Resolution to continue operation with an actively managed portfolio.
